***REASONS FOR ALLOWANCE***

The following is an Examiner's Statement of Reasons for Allowance:

Claims 1-5 and 7-14 are allowed because none of the prior art references of record teaches a closed ink supply system wherein air is sealed outside the system and not allowed to flow into components of the system, the system comprising a print head that includes a first and second pressures at a first and second print head portion are substantially equal, and that these pressures are caused by capillary forces in the combination as claimed.

Claims 16-20 are allowed because none of the prior art references of record teaches a method of supplying ink to a print head through a closed ink supply system wherein air is sealed outside the system and not allowed to flow into components of the system, the method comprising a step of causing a first pressure at a first print head portion to be substantially equal a second pressures at a second print head portion by capillary forces in the combination as claimed.

Claim 21 is allowed because none of the prior art references of record teaches a closed ink supply system wherein air is sealed outside the system and not allowed to flow into components of the system, the system comprising a first and second pressures that are caused by gravity-fed pressure head, capillary forces, and the relative height to which the first sub-reservoir is adjusted by a height adjustment mechanism in the combination as claimed.

***CONCLUSION***

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
